# Définition de "Santé"

La Constitution de l'OMS définit la santé comme suit:

« La santé est un état de complet bien-être physique, mental et social, et ne consiste pas seulement en une absence de maladie ou d'infirmité »

(extrait de la Constitution de l'OMS, 1946)

## CONSTITUTION OF THE WORLD HEALTH ORGANIZATION

THE STATES parties to this Constitution declare, in conformity with the Charter of the United Nations, that the following principles are basic to the happiness, harmonious relations and security of all peoples:

Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity.

The enjoyment of the highest attainable standard of health is one of the fundamental rights of every human being without distinction of race, religion, political belief, economic or social condition.

# Objectif de l'OMS

---

**L'OMS s'est fixé comme but :**

**“ d'amener tous les peuples au niveau de santé le plus élevé possible ”**

**(Article 1, Chapitre I, Constitution de l'OMS)**

# Qu'est-ce que c'est l'OMS?

- L'agence spécialisée des Nations Unies dans le domaine de la santé publique
- 194 Etats Membres prennent des décisions collectives avec l'appui du secretariat de l'OMS concernant les priorités globales de la santé, les actions pour sauver des vies et pour améliorer la santé
- Le siège est à Genève, 6 bureaux régionaux (Copenhague, Washington DC, New Delhi, Manille, Brazzaville, Le Caire) et 149 bureaux dans les pays qui travaillent étroitement avec les acteurs de la santé sur le terrain
- Le Secrétariat de l'OMS comprend environ 7500 professionnels de la santé et autres spécialistes et personnels d'appui
- Directeur général : Docteur Tedros

# Gouvernance

**L'Assemblée mondiale de la Santé  
est l'organe décisionnel suprême de l'OMS  
(194 Etats Membres)**

**Le Conseil exécutif  
est composé de 34 membres techniquement  
qualifiés dans le domaine de la santé**

Practical information

## Practical Information

### When:

- 9:00-12:00 (local time)
- 14:00-16:00 (local time)

### Where:

The WHO Library is located on the ground floor of the World Health Organization building in Geneva, Switzerland (Avenue Appia 20, 1211 Geneva 27)

[Find us on a map](#)

Visitors do not need to make an appointment to use the library, but they are requested to sign the register at the main Reference Desk.

### Getting help:

A Reference Librarian is available for all onsite enquiries and any research assistance you may need.

### Using the collections:

All library collections are available for consultation  
– books can be borrowed by WHO staff only.

[Print collections available](#)

### Historical research:

Access to GIFT (for WHO staff only)

# Ithaka S+R Library Survey 2016

# Négocie les conditions générales d'achat et d'accès avec les éditeurs

## CONTRACT DISPUTES

At least four European consortia, representing libraries and universities, say they have failed to agree contracts with academic publishers to subscribe to their content.

| Country         | Consortia   | Disputes  |
|-----------------|---|---|
| The Netherlands | Association of Universities in the Netherlands (VSNU) | No agreement with Royal Society of Chemistry Publishing (March 2018)                |
| Germany         | Projekt DEAL  | No agreement with Elsevier (since December 2016)                                    |
| Sweden          | Bibsam Consortium                                     | No agreement with Elsevier (May 2018)   |
| France          | Couperin  | No agreement with Springer Nature for its Springer journals collection (March 2018) |

# Déconstruire la méga-entente

- Méga-entente – un prix forfaitaire pour un accès illimité à tous les titres de périodiques de l'éditeur.
- En utilisant les données d'utilisation et les analyses de citations afin de cerner les périodiques qui sont réellement essentiels pour la recherche de nos utilisateurs.
- Exemple : l'Université de Montréal. Au lieu de s'abonner aux 2266 titres de Springer, la bibliothèque n'a gardé que 150 titres. Ces 150 titres représentent 42 % des téléchargements de l'Université de Montréal auprès de Springer Verlag

## Programme Hinari d'accès à la recherche pour la santé

Le programme Hinari, mis en place par l'OMS en collaboration avec de grands éditeurs, permet aux pays à revenu faible et intermédiaire, d'avoir accès aux plus grandes collections de publications en biomédecine et en santé. Jusqu'à 13 500 revues, 60 000 ouvrages et 110 autres sources d'information en ligne sont à présent à la disposition des institutions médicales dans plus de 115 pays, régions et territoires, bénéficiant à plusieurs milliers de chercheurs et professionnels de la santé, contribuant ainsi à améliorer la santé mondiale.

- [!\[\]\(b765ec7926b2075407e812d537cac5c5\_img.jpg\) Carte de la distribution géographique 2018](#)
- [!\[\]\(a4120310eaccc35af0c0dcc6eb635fc3\_img.jpg\) png, 121kb](#)
- [Pays admissibles en 2018](#)

## Restez informé !

- Accédez aux plus grandes revues biomédicales internationales dans votre bibliothèque
- Toutes les revues sont accessibles gratuitement ou à très bas prix

Informations pour la vie

- Hinari a été lancé en janvier 2002, avec quelques 1500 revues chez six grands éditeurs : Blackwell, Elsevier Science, the Harcourt Worldwide STM Group, Wolters Kluwer International Health & Science, Springer Verlag et John Wiley,
- Depuis, le nombre d'éditeurs, de revues et autres sources d'informations en texte intégral n'a cessé d'augmenter. Aujourd'hui, plus de 190 éditeurs-partenaires offrent jusqu'à 69 000 sources d'informations.

## Countries, areas and territories eligible for Research4Life

The boundaries and names shown and the designations used on this map do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

### News

We are currently experiencing technical difficulties with the resources from the following publishers: Australasian Medical Publishing Company, Cambridge University Press, Lancet, Medicines Complete (BNF), also Springer and Schattauer (PDFs only).

PubMed has recently moved to secure web communications and this has disrupted the function connecting Hinari

## ARDI – Recherche pour l'innovation

Le programme d'accès à la recherche pour le développement et l'innovation (ARDI), coordonné par l'OMPI en collaboration avec ses partenaires de l'industrie de l'édition, vise à faciliter l'accès à l'information scientifique et technique dans les pays en développement. En améliorant l'accès à la documentation relative à divers domaines scientifiques et techniques, le programme ARDI vise à :

# ABOUT RESEARCH4LIFE

## What is Research4Life?

Research4Life is the collective name for the five programmes – Hinari, AGORA, OARE, ARDI and GOALI – that provide developing countries with free or low cost access to academic and professional peer-reviewed content online.

Eligible libraries and their users benefit from:

- Online access to up to 85,000 peer-reviewed international scientific journals, books, and databases
- Full-text articles which can be downloaded for saving, printing or reading on screen
- Searching by keyword, subject, author or language
- Resources available in several languages
- Training in information literacy and promotional support

## HOW TO REGISTER

[New Strategic Plan](#)

# «Accès libre» - Qui paie?

- Favoriser la mise en place de systèmes non commerciaux
- Transfert du fardeau financier de la bibliothèque (moins dépenses pour les abonnements) sur les auteurs (author publishing fees)
- Consultations avec la bibliothèque par les auteurs
  - Où publier?
  - Fonds nécessaire pour publier?
  - Les bourses?

# Adopter la politique de diffusion numérique « d'accès libre »

The *Bulletin* is a fully open-access journal with no article-processing charges. All articles are available under the Creative Commons Attribution 3.0 IGO licence ([CC BY 3.0 IGO](#)) and are freely available online: <http://www.who.int/bulletin/volumes/en/>.

## CONTRACT DISPUTES

At least four European consortia, representing libraries and universities, say they have failed to agree contracts with academic publishers to subscribe to their content.

| Country         | Consortia   | Disputes  |
|-----------------|---|---|
| The Netherlands | Association of Universities in the Netherlands (VSNU) | No agreement with Royal Society of Chemistry Publishing (March 2018)                |
| Germany         | Projekt DEAL  | No agreement with Elsevier (since December 2016)                                    |
| Sweden          | Bibsam Consortium                                     | No agreement with Elsevier (May 2018)   |
| France          | Couperin  | No agreement with Springer Nature for its Springer journals collection (March 2018) |

# S'abstenir de participer aux comités de lecture ou à titre de rédacteur

## NO TO ELSEVIER'S UNFAIR DEALS

Since November 2016, more than 2700 members of the academic community in Finland have signed tiedonhintta.fi online petition which called for fair pricing for academic journal subscriptions and increased open access in the ongoing negotiation with international publishers. More than two thirds of those who signed the petition were prepared to abstain from editorial and reviewer duties in journals whose publishers are unwilling to meet the demands of the Finnish negotiators. It's time to stand by that commitment: no deal, no editing and reviews.

## LIBRARY FEES AT KING'S COLLEGE.

*To the Editor of THE LANCET.*

SIR,—Permit me, through the medium of THE LANCET, to inquire why a library fee is exacted from each matriculated student at a medical school, and how such fees are annually expended at a medical school which holds out so many advantages to its pupils; but at the library and reading-room of which (unlike the other leading metropolitan schools) neither THE LANCET nor any other weekly or quarterly periodical is taken in for the perusal of those who subscribe to it? An early insertion of these queries will much oblige, your obedient servant,

A KING'S-COLLEGE STUDENT.

Dec. 1846.

Article Original

## Santé Mentale des Femmes Détenues à la Prison Civile de Lomé

*Mental health of women detained in the civil prison of Lome*

Saliou Salifou<sup>1</sup>, Daméga Wenkourama<sup>2</sup>, Kokou Messanh Agbémélé Soedje<sup>3</sup>, Lucrèce Anagonou<sup>2</sup>,  
Baloke Agouda<sup>1</sup>, Kolou Simliwa Dassa<sup>3</sup>

### RÉSUMÉ

**But :** Déterminer la prévalence des troubles psychiatriques chez les femmes incarcérées à la prison civile de Lomé. **Méthodologie :** Il s'agit d'une étude transversale, à visée descriptive réalisée à la prison civile de Lomé du 15 au 20 décembre 2016. **Résultats :** Au cours de la période d'étude, 67 femmes (3,87% de la population carcérale) étaient détenues à la prison civile de Lomé. Ces femmes détenues provenaient du Togo, du Ghana et du Nigéria respectivement dans 44,3% ; 18,0% ; 13,1% des cas. Elles avaient le niveau collège, primaire

- Utilisez une brosse à dents et brossez-vous les dents. Utilisez du fil dentaire.

صفحة

- Осторожно чистите зубной щёткой с мягкой щетиной. Прочищайте между зубами специальной нитью каждый день.

- Если у Вас рвота, полоците рот раствором питьевой соды: 1 чайная ложка соды на 1 чашку воды. Это поможет Вам избавиться от кислого вкуса во рту.

- Не курите и не употребляйте табачные изделия.
